## THE SMART WAY TO BUILD

UniWall is a multi-functional wall system that goes beyond your conventional exhibition wall systems.

The system can be used as a free standing sign, wall or booth. With a variety of wall finishes available including; Laminate, Whiteboard, MDF, Ply or Fabric; all of which can be customised with your signage requirements. The wall can be used vertically or horizontally and display merchandise or hang LCD screens for your display.

This product is the most adaptable, sustainable and versatile we have seen in the exhibition industry. Its multi-functionality means the options are endless in creating a seamless, modern and practical shell scheme design.
